

DRAW-TITE® CUSTOM BUILT TRAILER HITCHES

DRAW-TITE GIVES YOU TOP QUALITY IN EVERY HITCH AND RECEIVER WE MAKE:

- Solid all-welded construction for maximum strength and safety.
- Custom built according to manufacturer vehicle weight specifications and model year to ensure perfect fit and top towing performance.
- All Draw-Tite hitches meet and exceed V-5 and SAE J684 standards and are inspected for quality and workmanship.
- Computer-aided design and fatigue stress testing ensure a strong design that will withstand road abuse within specified capacities.
- Finish is black powder coat over e-coat (industry leading corrosion resistance).
- Backed by a nationwide limited lifetime warranty.

SELECTING THE RIGHT HITCH

- Determine the Gross Trailer Weight and Gross Tongue Weight of the trailer that you would like to tow. Check with the trailer manufacturer or if you are not sure, have it towed to a government inspection scale. Remember that the G.T.W. should reflect a fully loaded trailer.
- Consult your vehicle’s owner’s manual to determine if your vehicle is rated to safely tow your trailer.
- Use the chart to figure out the minimum “Class” of hitch that is required.
- Consult a Draw-Tite dealer to find out which hitches are available for your vehicle. Or visit our website: www.draw-tite.com.
